### Green and Orchid Island Offer Reusable Cup Rentals

If you're visiting Green Island or Orchid Island, now there's no need to bring a cup!

Now the islands have a cup rental system. There are 1,200 reusable cups for people to rent. If you are on the islands, and need a cup, head to one of the automatic machines. First, scan the QR code, and enter your cup number. After doing that, you can take the cup!

When you finish using the cup, you can return it at many stores, hotels, and other places. The cups are then professionally cleaned and disinfected before people rent them again.

This system started at the end of 2021. But most people stopped visiting the islands because of COVID-19. So the cups didn't get much use. But over the Lunar New Year holiday, more people started using the system. It's a good way to cut waste and help the environment.

More and more Taiwanese children like to play online games or watch short videos on their smart phones. They spend much time on their smart phones. How to solve this problem? Some school students in Indonesia have the same problem as students in Taiwan do. They love their phones a little too much. So their teachers had a cool idea. They gave the students baby chickens...Yes, the chicks!

**"They"** gave the school children chicks so they could do something "real" by taking care of a real baby chicken. Not just play a game on a smartphone all day long! If the students help the chick grow up to be big and strong, the kids win a prize! Isn't it cool? Good luck to the students in Indonesia! Maybe Taiwanese students can try this way, too.
